Paget's disease is a bone disorder in which the normal cycle of bone renewal and repair is disrupted. This can lead to pain, deformity and complications such as fractures.

The Paget's Association is a registered UK charity dedicated to improving the lives of those affected by the condition by:

- ✓ **Providing expert support and reliable information**
- ✓ **Raising awareness to promote understanding and early diagnosis**
- ✓ **Encouraging and funding vital research**

**Together, we can bring help to those who need it most.**

**Thank you!**
