Communication can be by whatever means you prefer – just indicate your preference on the form below. It is a free, mutually supportive network and is open to any Paget's Association member whether you are in the UK or overseas.

Virtual Paget's Support Groups

The Paget's Association's Virtual Paget's Support Groups (using Zoom) are for anyone affected by Paget's disease, including partners, family etc.

Those attending have opportunity to speak with others who have Paget's disease, receive information, watch short videos related to Paget's disease, make new friends, and gain support from each other, as well as from our Specialist Paget's Nurse, Diana Wilkinson, who facilitates the meetings. Our aim is to support those affected by Paget's disease through the sharing of information, concerns and experiences.

We have three small groups, on different days and at different times so wherever you are in the world there may be a time to suit you. Each meeting lasts about an hour. The groups meet every two months and there is no obligation to join every meeting.
